TEN CENTS A WEEK

LED FROM FLAMES

Two Towns in Wisconsin are Destroyed by Forest Fires.

PEOPLE ABANDONED HOMES

Men, Women and Children Fought Valiantly to Save Their Homes, but to No Avail, and finally Fled for Their Lives.

Rhineland, Wis., Sept. 22.—Gagen and Woodboro were destroyed by forest fires Sunday.

The fire started in the woods Sunday morning and quickly reached Gagen and Woodboro.

Men, women and children fought valiantly to save their homes, but with no avail.

Gagen and Woodboro each had about 1000 residents and nearly all are now homeless.

Burned out of their homes, the people began fleeing from the fire, which grew more dangerous with each passing minute.

Women, carrying children in their arms, and men and boys with packs on their backs, ran toward Rhineland, many falling in the heat, only to be helped on by the stronger refugees.

Nearly all of those burned out at Gagen reached Rhineland Sunday night and are now being cared for. But few of the Woodboro people are here and it is not known what has become of all of them.

The fire is a fresh one and not a continuation of the fires which did so much damage last week.

It was feared Rhineland with its homes of seven thousand persons, was doomed, also, but a change in the direction of the wind probably has saved the city.

The towns of Gagen and Woodboro are on the Soo railway.

Reports from refugees who came to this city say nothing is left of Gagen. Citizens have decided to ask Governor Davidson to order out the state militia to assist in fighting the flames which, because of the dry condition of the woods, threaten to destroy the forests.

It is feared the wind may again shift and the mayor and chief of police believe the danger to Rhineland is not yet over.

Hundreds of men have gone out from this city to fight the flames, but reports received from those returning say they have made little progress against the fire.

DUEL WITH KNIVES.

One Had Artery Severed and Bled to Death at Hot Springs, Ark.

Hot Springs, Ark., Sept. 22.—In a duel with ordinary pocket knives, Charles Dunfield, of Pennsylvania, was killed Sunday morning by Sam W. Ray, of Tennessee, as the culmination of a quarrel between former friends.

The men were employed on the Hot Springs Western railroad, and came to the city Saturday night. They quarreled, fought at first with their fists, and then with knives.

Ray was cut about the face and Dunfield was slashed on the right arm, a vein being severed which caused him to bleed to death. Ray escaped.

Drouth Probably Broken.

Gallatin, Tenn., Sept. 22.—A light rain fell at Hopkinsville, Ky., Monday morning, the first in many weeks. Indications are good for enough rain to at least relieve the drouth. Water has become so scarce and hard to get in sections of western Kentucky that it is being stolen from those who have a supply and refuse to furnish it to outsiders.

Forty Days of Drouth.

Gallatin, O., Sept. 22.—Monday marked the fortieth day without rain in this section. Much suffering and loss has been caused. Farmers are driving stock five and six miles for water. Many schools in West Virginia districts have closed and all churches have had to cease in some sections owing to the water famine.

WATCHED FIERCE FIGHT.

Black Female Leopard Killed by Her Cagemate at Zoo.

New York, Sept. 22.—Nigger, a black female leopard, has been killed by her cagemate, The Devil, after a desperate battle in the lion house of the Bronx menagerie. Hundreds of persons, including women and children, watched the combat. The keepers made vigorous efforts to separate the fighters, but could do nothing with the enraged animals.

For a week or more the couple had not been on good terms and Nigger carefully kept to her corner in the cage, avoiding her angry spouse.

Then when the lion house was crowded with visitors the female leopard ambled across the cage to where her mate lay and began to scratch her back against the bars. The Devil instantly resented this by lifting one of his paws and knocking her down. There was no further attempt at friendliness by Nigger. She leaped at him and they rolled over the floor of the cage, clawing and snarling. The clamor aroused the other animals, and the roar of the lions and tigers were soon shaking the building.

George Engleholm, one of the keepers, procured an iron spike and tried to pry the animals apart. His efforts were of no avail and he was joined by three other keepers, similarly armed, but their combined force was futile also.

For nearly twenty minutes the battle continued. Then the Devil by a deft flank movement sank his fangs in Nigger's throat and a minute later she fell over dead.

NASHVILLE WINS PENNANT.

Brilliant Game Was Fought For the Championship Flag.

Nashville, Tenn., Sept. 22.—Nashville won the Southern League championship for 1908 Saturday afternoon by a victory over New Orleans, 1 to 0. Until the game was decided the pennant owner was in doubt.

So close has been the contest, with New Orleans leading until Saturday, that the flag went with this closing victory. The crowd overflowed the grand stand, the bleachers and the grounds, and hundreds were turned away at the gates, unable to effect an entrance.

The enthusiasm was unbounded and the game one calculated to inspire it. It was a brilliant, stubborn battle in which neither side made headway until the seventh, when Nashville's single score was made.

A \$5,000,000 CONFLAGRATION.

Paris, France, Postoffice and Central Telephone Station Destroyed.

Paris, Sept. 22.—Fire broke out Sunday night in the Central telephone building and spread with such rapidity that the telephone employees were forced, after brief and ineffectual efforts to extinguish the flames, to fly hastily to the streets.

The entire building was soon in flames and this, together with the postoffice, which is located close to the Place des Victoires, was totally destroyed. The loss is estimated at \$5,000,000, but a much greater loss is likely to be involved through the complete interruption of telephonic communication.

It will take more than a month to re-establish the service, and even a temporary installation will require a considerable length of time.

Women's Slayer Arrested.

Jacksonville, Fla., Sept. 22.—Walter Leebetter, a negro tramp, was arrested early Sunday morning by Sheriff Bowden, in the settlement of Marietta, and confessed to killing Mrs. Norman and her daughter there Saturday. As soon as the residents of the settlement learned that the negro had been captured there were threats of a lynching, but the negro was safely lodged in the Duval county jail, where he is under guard. A speedy trial is now being arranged for the case.

FIRE LOSS \$300,000

Chelsea, Mass., Is Visited by Serious Conflagration.

10 TENEMENTS DESTROYED

Large Box Factory of Atwood & McManus Burned—Fire Was Finally Gotten Under Control After a Hard and Stubborn Fight.

Chelsea, Mass., Sept. 22.—Fire on Monday destroyed the large box factory of Atwood and McManus, the Hill Rowland Brass Foundry and ten wooden tenements.

The Chelsea Bottling Works and the Lee Bros.' Shoe Factory also caught fire.

Later the large wooden building occupied by the Eastern Storage company caught fire and the flames reached the Standard Oil company's station, where a large supply of gasoline and naphtha was stored.

The fire was finally gotten under control. The total loss is estimated at \$300,000.

RIOT IN CHICAGO SUBURB.

Religious Parade Developed into a Maddened Mob.

Chicago, Sept. 22.—A street car was demolished and its crew injured Sunday when a religious parade of one thousand persons led by Bishop Paul Rhode became a maddened mob in Chicago Heights.

It was with difficulty that the bishop, who was on his way to dedicate a new cemetery, prevailed upon the marchers to restore order.

The riot took place near the city hall of the suburb when the motorman of the car attempted to pass through the line of parade.

The marchers became offended when their ranks were disturbed and in an instant the air was filled with flying stones and missiles. The windows of the car were smashed, the woodwork broken and the crew hurt.

The passengers on the car fled in terror and several suffered slight injuries from broken glass and crowding.

ALABAMA'S COTTON CROP.

President Seymour Thinks It Will Be Larger Than Last Year.

Montgomery, Ala., Sept. 22.—W. H. Seymour, president of the Alabama Cotton association, in an interview says that he does not believe that the cotton crop of the year will fall below that of last year, though Alabama will not come up to the figures of that time.

In fact, he says, that his information leads him to the belief that the crop will be larger than last year. The crop is opening rapidly and by the middle of October, he thinks, the fields will be clean.

As regards price, Mr. Seymour thinks there will be little sold but what is forced out at the present range, also that with the return of better trade conditions the price will get better.

Municipal License Cost.

Montgomery, Ala., Sept. 22.—Secretary of State Frank N. Julian is meeting with much encouragement in his fight to prevent high municipal license on insurance companies. Some time ago he sent out a circular urging that the cost of doing business in the cities be reduced, as that would lead material aid to the business in the state. Mr. Julian says: "If we can get the municipal taxes reduced, not only will more insurance companies enter the state, thus augmenting the business, but the revenue of the state will be materially increased."

Turf Editor Dies.

Boston, Sept. 22.—Lemuel G. Trott, widely known as an authority on trotting, who was fatally injured by a fall from a train, died Monday night. He was sixty-four years of age. From 1887 to 1891 he published the "Turf Weekly," "The Spirit of the Race," and for years he wrote for Boston dailies on trotting matters.

TRAGEDY AT BARNESVILLE.

Night Marshal Shot and Killed by Prominent Planter.

Barnesville, Ga., Sept. 22.—Night Marshal Ben Porch, who was shot at 3 o'clock Saturday morning by Ben Perdue, a prominent planter, who lives near here, died Sunday in the afternoon.

The shooting was the sequel to the arrest of Perdue by Marshal Porch. It is alleged that Perdue was drinking during the early part of Saturday night and he was arrested and locked up by Marshal Porch.

After being confined for some hours Perdue was released through the efforts of friends, when, it is alleged, he procured a shotgun and opened fire on Marshal Porch as the latter passed up Market street about three o'clock Sunday morning.

It was thought at first that Marshal Porch's wounds would not prove fatal, but he became worse about 12 o'clock and died two hours later.

After shooting the marshal, Perdue escaped and no trace of him has been found, though officers are searching for him.

FIVE WOUNDED; THREE MAY DIE

Bloody Shooting Affray Occurs on a Train in Alabama.

Sylacauga, Ala., Sept. 22.—In a shooting affray on the east-bound passenger train at Gilmore, near here, three negroes were wounded, two perhaps fatally, and Pope Graham, a passenger, may die of wounds he received. Deputy Sheriff Colburn Cornet, of Sylacauga, was shot in the arm.

Deputy Sheriffs Otwell, of Talladega, and Cornet, of Sylacauga, had warrants for three negroes charging them with gaming and carrying concealed weapons, as well as selling whisky. Taking a negro with them who knew the men, they met the train at Gilmore. As soon as the negroes saw the negro "spotter," they began shooting. The deputy sheriffs returned the fire while the train was running.

Mr. Graham was shot through the stomach. He was brought here. The other two were taken to Talladega. It is believed that two of them will die.

WRECK IN ARKANSAS.

Twenty Passengers Injured in Crash Near Searcy.

Little Rock, Ark., Sept. 22.—Eleven people were seriously injured in a wreck at Searcy, Ark., when a motor car on the Rock Island railroad crashed into an open switch at the junction points of the Missouri and North Arkansas railroad and the Rock Island.

The car was smashed into small pieces. It is alleged that the switch was left open by a Missouri and North Arkansas freight train. There were twenty passengers on the car at the time of the accident.

Shot and Killed Burglar.

Macon, Ga., Sept. 22.—City Detective Tom Jones at 3 o'clock Sunday morning shot and killed Junior Braid, a negro burglar, just after he had burglarized the grocery store of J. C. Vahn, and attempted to burglarize the dwelling of Thomas O. Carroll. Mrs. Carroll was aroused by the negro in the house and screamed. He broke through the glass door and ran. The city detective was called and gave chase. He was forced to shoot the negro, who showed fight when he was overtaken.

Multi-Murderer Caught.

Sherman, Tex., Sept. 22.—Mrs. Mary Zimmerman, whose home is at San Francisco, Cal., has positively identified Bill Hatfield, who is in the Grayson county jail, as being G. Dunham, who is wanted at San Jose, Cal., for the murder of six persons—Mrs. R. T. McGhee, Mrs. Hattie B. Dunham, Mrs. Minnie Bytewater, Col. R. P. Mortimer, James K. Wells and Robert O. Hinson.

Thrown Under Engine and Killed.

Montgomery, Ala., Sept. 22.—Daniel Baxister, engineer of a log train of the Britton Lumber Company at Florida, was thrown under his engine and killed Saturday according to reports received here.

RESISTED OFFICERS

Woman and Husband Fought a Sheriff's Posse.

BARRICADED IN DWELLING

When Officers Approached to Make Arrest They Were Fired Upon by the Inmates—in the Fight the Woman Was Killed.

West Plains, Mo., Sept. 22.—John Roberts and his wife Sunday resisted a sheriff and several deputies in a desperate fight near Prestonia, a mile south of the Arkansas line, when the officers attempted to arrest Roberts for killing Obe Kessinger, a neighbor, Saturday night. As a result the woman and Sheriff Mooney, of Baxter county, Arkansas, are probably mortally wounded, and Roberts and two deputies are seriously hurt.

Roberts went to Kessinger's house Saturday night and called Kessinger to the door. When Kessinger appeared Roberts fired and killed him, it is said. The cause of the deed has not been learned.

Sheriff Mooney with several deputies started to arrest Roberts. Mrs. Roberts, from a window, told the officers to keep away, but the sheriff continued to advance and both she and her husband opened fire.

Mooney was shot by the woman, it is said. His fall disconcerted the deputies for a few minutes, and Roberts and his wife took advantage of this to barricade the house. They defended the building for hours under fire. When the firing from within finally ceased, the door was broken down.

Mrs. Roberts, suffering from fourteen wounds, was dying, and no attempt was made to remove her to jail. Roberts and the wounded officers were taken to Mountain Home, Ark.

ODD FELLOWS MEET.

Eighty-Fourth Annual Session of the Sovereign Grand Lodge.

Denver, Colo., Sept. 22.—Fully five thousand delegates and visitors are here to attend the eighty-fourth annual session of the sovereign grand lodge, Independent Order of Odd Fellows, which began its deliberations Monday at the Auditorium.

Politics will engage the attention of the delegates to some little extent, although there is but one office to be filled by vote, all the other vacancies being provided for by custom and succession. The one office to be filled and over which there is likely to be some campaigning, is that of deputy grand sire.

There are seven candidates for this office.

TRAGEDY IN NEW ORLEANS.

Quarrel of Italian Fruit Dealers Results in Fatal Shooting.

New Orleans, La., Sept. 22.—Matteo Lanasa, an Italian fruit and vegetable dealer, was shot and killed late Sunday in front of his home in St. Ann street by Frank Pusateri, another Italian, who occupied half of a double cottage with Lanasa.

Bastiano Bomeretto, who was with Pusateri at the time, was shot and badly wounded by Mrs. Lanasa, widow of the dead man.

Bad feeling had existed for some time between Pusateri and Lanasa, and the shooting followed a remark said to have been made by a young child of Lanasa about Bomeretto, who is a cripple.

Raising Funds for Monument.

New Orleans, La., Sept. 22.—A festival for the benefit of the Jefferson Davis monument fund was held at the ball park there, social, military and business organizations contributed toward the amusement, and notwithstanding rainy weather, many persons showed their interest in the monument fund by attending the entertainment. This festival is one of the many different means being employed to raise money for a monument to Mr. Davis in Audubon park.

GAINESVILLE B. P. O. E. IS HIGHLY HONORED

One of Its Prominent Members Appointed District Deputy.

COL. H. S. CHUBB WAS FAVORITE

Territory Will Embrace Northern District of Florida—Position Requires That Deputy Visit Lodges and Represent Grand Exalted Ruler.

Gainesville Lodge No. 99, B. P. O. E., has been highly honored by the selection of one of its members as District Deputy for the northern district of Florida.

The selection fell to Hon. Henry S. Chubb, who is an enthusiastic Elk, and could not have been bestowed upon one who is more worthy of the honor than the genial Colonel.

It is the duty of the District Deputy to visit the lodges in his district and inspect and report upon them to the Grand Exalted Ruler—in fact, he represents the Grand Exalted Ruler in every respect in this particular.

The appointment came as a great surprise to the Colonel, as it was unsolicited by any member of the order, and he was wholly unaware of the position until he received the appointment.

That the Colonel will "make good" in his new official role there is not the least doubt on the part of his host of friends and admirers, and they are all pleased that one so well fitted for making friends has received this high honor direct from headquarters.

A FAITHFUL OLD NEGRO.

Henry Elmore Died at Charleston at Age of 90 Years.

An old negro by the name of Henry Elmore, who personally witnessed the inauguration of Martin Van Buren in 1836, died yesterday in his little room near the Moseley National House, at the age of 90 years, he having been a trusted servant and household friend in the popular hotel for the past forty years. To the patrons and to many other people in and out of this city the old darkey was a sort of fixture and all regret the news of his death.

Elmore was formerly a slave owned by Col. Elmore, well-known before and during the war in Columbia. Henry often pooh-poohed the stories told by others of his color that unkind treatment was meted out to them all in days before the war, and with glowing eyes spoke of the kindnesses and favors he was made the recipient of while the property of Col. Elmore. At the age of 17 he, together with his young master, journeyed to Washington, D. C., for the purpose of witnessing the inauguration of Martin Van Buren, and as there were no railroads in that section of the country at that time the trip had to be made on horseback. Being freed during the course of the war he came to Charleston and married one of Mrs. M. A. Hixon's slaves. When the Moseley National House was started the negro was employed about the hotel and until the last few years prior to his death, did his share of work for Mrs. Moseley. The kind-hearted lady had not the heart to turn him adrift when he began ailing, and consequently took care of him until the time of his death yesterday afternoon.—Charleston News and Courier.

The above old darkey at one time belonged to the father of Capt. A. R. Elmore of this city, and the Captain remembers him well, as he used to nurse and take care of him in his younger days.

Brought Two Prisoners.

Marshal J. R. Williams of Newberry arrived in the city Tuesday night with two prisoners from Justice Henderson's court at that place.

Jake Carwin, a negro who attempted to dynamite another negro's house at Newberry last spring, was arrested and bound over by the justice for the full term of court.

Chas. Green, who loves chicken, happened into one of the fowl houses of that place on Sunday night and proceeded to help himself to the best that was on the roost. He was given six months for this offence. The marshal arrested him while he was in the act of cooking one of the fowls.

TRIAL SET FOR THURSDAY.

Preliminary Hearing of Man That Cut Dansby Sunday.

The preliminary hearing of Cathcart, who seriously cut Dansby at Wade on last Sunday, has been postponed until next Thursday, when the case will come before Judge M. A. Bexley at High Springs.

This was occasioned by the fact that Dansby and important witnesses were unable to be present at the hearing, and it was adjourned until the above date.

Cathcart has been released under bond for his appearance at the justice court.

A SURPRISED MINISTER.

"For many years I have been a sufferer from bronchial catarrh, and had despaired of anything like a cure. Judge of my pleasant surprise when I first used Hyomei, which brought complete relief. Hyomei has been a veritable godsend."—Rev. Charles Hartley, Sardinia, Ohio.

Thousands of catarrh sufferers have given up in despair. They have tried stomach dosing, snuff, sprays and douches without success, and now believe catarrh to be incurable.

But J. W. McCollum & Co., the druggists, hold out hope to all distressed. They sell a remedy called Hyomei which is guaranteed for catarrh, colds, coughs, bronchitis, asthma and croup.

Hyomei (pronounced High-o-me) is medicated air, full of the healthy virtues of the mountain pines. You breathe in the delightful antiseptic air, and as it passes over the inflamed and germ-ridden membrane, it allays the inflammation, kills the germs, and drives out the disease.

A complete Hyomei outfit, including a hard rubber inhaler, costs but \$1, and an extra bottle of Hyomei, if afterwards needed, costs but 50 cents. See J. W. McCollum & Co. about it today.

Reception for the Juniors.

All members of the Junior Union of the First Baptist church are requested to meet at the residence of Rev. S. B. Rogers Thursday afternoon at 3 o'clock, when a reception will be tendered them.

Quick Relief for Asthma Sufferers.

Foley's Honey and Tar affords immediate relief to asthma sufferers in the worst stages and if taken in time will effect a cure. J. W. McCollum & Co.

If you have found anything see if it is advertised in the Want column.

Bilious?

Doctors all agree that an active liver is positively essential to health. Ask your own doctor about Ayer's Pills.

"How are your bowels?" the doctor always asks. He knows how important is the question of constipation. He knows that inactivity of the liver will often produce most disastrous results. We believe Ayer's Pills are the best liver pills you can possibly take. Sold for over 60 years.

TRIED TO KILL FAMILY.

Dynamite Exploded Under Man's House at Reading, Pa.

Reading, Pa., Sept. 22.—An attempt was made here early Monday morning to kill Joseph A. Gansler, a grocer and his family, when a large quantity of dynamite was exploded against a wall of his home. Mr. Gansler and members of his family were thrown out of bed but no one was injured. The front of the building was wrecked.

Some weeks ago Mr. Gansler received an anonymous letter that his house would be blown up. Although a policeman has had the place under watch ever since, there is no clue to the perpetrators.

CUT THROAT BEFORE WIFE.

Then Austin Walked Out of Hotel and Died on Sidewalk.

Mount Pleasant, Tex., Sept. 22.—After cutting his throat with a pocket knife in the presence of his wife late at night, A. S. Austin calmly closed the weapon, replaced it in his pocket and with a great stream of blood rushing from his wound, walked out of the Peterman hotel, of which he was proprietor, and falling to the sidewalk, died within a few minutes in the presence of hundreds of Sunday promenaders.

The motive that impelled Austin to take his life is not known.

WAS SLASHED TO PIECES.

One Greek Carved Up Another with a Butcher's Knife.

Birmingham, Ala., Sept. 22.—Peter Ponoteor, a Greek, was carved to death Sunday morning by George Colefas, another Greek, at the former's lunch stand on Ninth street. No one seems to know how the difficulty started, and when passers were first attracted to the scene Ponoteor was gasping for breath and his assailant had escaped.

A small butcher knife was used by Colefas, and Ponoteor's body was literally slashed to pieces, there being dozens of gashes all over his body.

UNDER SERIOUS CHARGE.

Father and Son Arrested in Connection with Haden Tragedy.

Columbus, Ga., Sept. 22.—Martin V. Culpepper and son, Upland Culpepper, charged with the assassination of Elvin Haden, aged nine, near Columbus Thursday night, were Saturday taken to the Opelika jail.

The bullet was fired at the child's father, T. J. Haden, as he sat on the porch. A Krag-Jorgensen rifle was the gun used and it was found hidden on the premises of Upland Culpepper, containing four loaded and one empty cartridge.

Both men protest innocence.

Will Train at Mobile.

Mobile, Ala., Sept. 22.—The Cleveland and Philadelphia teams of the American League will do their spring training in this city. Cleveland reports here for practice on March 1, 1909, and will remain two weeks. They will come about thirty strong, under the leadership of Napoleon Lajoie. The Philadelphia Athletics come on March 15, 1909, and will finish out the month.

Strange and Fatal Accident.

Birmingham, Ala., Sept. 22.—While driving a drill John I. Williams, a negro laborer, had a small piece of steel to fly off the hammer and go through his heart, killing him instantly. The accident happened in a well that was being dug. The postmortem examination showed that the small piece of steel made a perfect hole and lodged in the heart.

Foley's Orino Laxative is a new remedy, an improvement on the laxatives of former years, as it does not gripe or nauseate and is pleasant to take. It is guaranteed. J. W. McCollum & Co.

Watkins Spoke at Waco.

Waco, Tex., Sept. 22.—Aaron S. Watkins, of Ohio, candidate for vice president on the prohibition ticket, delivered two addresses here Sunday in his tour of the state. Many prohibitionists refused to hear him speak claiming that while it was all right to talk temperance on Sunday, in a general way, it was not proper for a candidate of a political party to do so.

INSURE IN THE BEST COMPANIES

A. M. CUSHMAN, Agent, Gainesville, Florida

WILL EXTEND BUILD- ING TO GARDEN ST.

Padgett Building. Next to Oliver's,
to Be Extended.

WORK SOON TO COMMENCE

It is rumored that the owner has long
planned on building as soon as
changes are made—another in-
dustry coming to city.

It is rumored that the Padgett
building, located next to the stables
of A. B. Oliver, will be extended
through to Garden street, covering
the entire length of the block.

The change, thus contemplated,
has been under advisement for some
weeks by the owner, and it was said
yesterday that the building would at
once be lengthened out to run the
entire length of the block, the back
entrance being on Garden street.

Outside business interests have
planned this building for a number of
years, and are coming here to en-
gage in business, but the nature has
not fully been learned. However, the
company that will enter have ample
capital and facilities and will add
materially to the business of the city.
Gainesville and her people welcome
all new-comers, and it is hoped that
the new business men will find the
city all that they anticipate in a
business way.

If buildings were obtainable, many
more would come to the city, as
there is at all times a demand for
neat store buildings, and scarcely
a week passes but that inquiries are
made regarding this class of houses.

Entertainment Thursday Night.

The program to be rendered at the
North Gainesville Hall for the bene-

desired to assist the worthy cause.

School Entertainment.

Island Grove, Sept. 18.—There was
an entertainment at the Island Grove
High School for the benefit of the
school house. After a long and well-
prepared program, lasting about an
hour and a half, ice cream and cake
was sold until about 11:30.

The next morning a few of the
young folks met to clean up the
school house, and a few of them made
some ice cream with the material
which was left from the entertain-
ment.

Claimed a Nuisance.

The negro pool and billiard room
located just in front of the residence
of E. A. Colclough, on West Liberty
street, is declared by parties in that
section to be a public nuisance. The
loud and boisterous language used
at this resort is anything but pleas-
ant, and the attention of the proper
authorities is directed thereto.

overcome that and please all the peo-
ple all the time. This will be the
fifth consecutive year this popular at-
traction has toured the Sunny South,
playing some times four-week engage-
ments in some of the cities where
they go each year.

Mr. Park has demonstrated the
truth of his statements regarding the
merits of this enterprise on former
visits and when he announces that
he expects the present organization
to surpass any he has before had the
pleasure of bringing to this city, the
pleasure-seekers are assured good
clean entertainments.

This company will open in Gaines-
ville Monday night, September 28th,
with an entire new list of plays and
the greatest show they ever had.

Prices: Children 25 cents, adults
35 cents. Reserve seats 15 cents ex-
tra.

Location of canvas theatre same as
before, at the corner of University
and Arlington streets.

Before the Mayor.

There were three cases disposed of
before Mayor Davis Tuesday morning
for various causes as follows:

Wilson Williams, an overzealous
drayman, crossed the dead-line at the
depot, but inasmuch as the defendant
was well-known and this was his first
arrest, he was discharged.

William Huff, who was making
things lively in the depot section, was
reported to Policeman Zetrouer and
he hunted him man up and placed him
under arrest. As the officer didn't
personally hear the trouble the negro
was let off with \$2 and trimmings, he
having plead guilty.

Ed Johnson, charged with fighting,
was given a hearing, but as the evi-
dence was rather conflicting, the may-
or decided to hold the case over until
next Friday, reserving his decision
pending personal investigation.

HIGH SCHOOL LYCEUM COURSE.

Proceeds to Be Devoted to Purchasing
Laboratory and Library.

The High School is without any-
thing resembling a laboratory. There
is only a small nucleus of a library.
The grounds, naturally beautiful, are
in a pitiable condition for want of
attention. The piano sounds like a
tin pan. It needs tuning. Many other
essentials are badly needed. We can-
not permit these needs to go unsup-
plied and still speak of our school as
one of the best in the State. We be-
lieve in pride in local institutions,
but not in idle boasts. Let that pride
first assert itself by seeking out and
correcting the deficiencies in those
institutions, by bringing them up to
the highest standards of efficiency.
Then we may honestly and boldly
point others to those institutions as
models, feeling assured that an ex-
amination will justify our pride.

The money with which to supply
these needs is not now available. The
district is without funds which may
be used for these purposes. For the
purpose of securing funds, we have
organized a lyceum course of eight
high-class attractions. They are as
follows: The Temple Male Quar-
tet Co.; The Days, characterists; Ed-
win Brush, magician; Dr. James Hed-
ley, humorist; Christine Giles' Compa-
ny; Ross Crane, cartoonist; Hon. Lou
J. Beauchamp, humorist; "Roney's
Boys" Concert Co.

We can assure the public that no
course of higher class attractions has
ever been given in Gainesville. Three
of them were among the most popu-
lar attractions ever presented by the
Chautauqua. The others are of the
same standard. They are all of a
popular nature, designed to please
all ages and classes.

We have fixed the price of tickets
as follows: Single ticket, \$3; double
ticket, \$5; school children above
twelve, \$2; under twelve, \$1.50. The
tickets may be used by any member
of the immediate family.

The equivalent of about one hun-
dred and sixty single tickets has been
subscribed for. We shall be glad to
have others subscribe. Those desir-
ing to do so may sign for tickets at
Avera's, Miller's or Vidal's drug store.
Collections will be made and tickets
delivered some time before the first
attraction is given, which will be in
October.

This course will not interfere with
the Chautauqua.

Remember in patronizing this
course you are getting far more than
your money's worth of enjoyment and
helping your school to secure things
which it badly needs.

THE GIRL WITH THE AUBURN HAIR

Is on the outside package of every
bottle of Parisian Sage. Should you
forget the name simply ask for the
package with "the Au-
burn hair" upon it.

And what a wonder-
ful sale Parisian Sage
has made for itself in
America in a little over
a year. And what a
multitude of people
have been cured of
falling hair, dandruff
and itching scalp by
its use.

And how the Ameri-
can women praise Pa-
risian Sage for its peculiar ability to
turn harsh, faded, lusterless hair into
fresh, beautiful, silky and lustrous
hair in a few days.

Parisian Sage is today the favorite
hair dressing and tonic of discrimi-
nating Americans, not because of sen-
sational methods of advertising, but
because it is the only hair restorer
that will do just what it is advertised
to do.

It kills the dandruff germ and cures
dandruff in two weeks. If it doesn't
W. M. Johnson, the agent in Gaines-
ville, will give you your money back.

"I had been troubled with dandruff
for five years, but since using Parisian
Sage I have not been bothered
with it. I only used one-half bottle
when I noticed the dandruff disap-
pearing. I consider it the best hair
tonic I ever used."—Mrs. C. M. Mor-
ton, 450 Main street, Buffalo, N. Y.,
Aug. 19, 1908.

If you haven't tried Parisian Sage
get a bottle today. It is a delightful
dressing. The price is only 50 cents
a large bottle at W. M. Johnson's or
direct, all charges prepaid, by the
American makers, Great Mfg. Co.,

WASHINGTON LETTER.

(Special Correspondence The Sun.)

Washington, D. C., Sept. 22.—When Congress convenes in December the two magnificent office buildings designed for the use of the members will have been completed. The offices of the Representatives were in fact used last spring, but the Senate offices begun a year later were not ready for occupancy, and the Senators will have their first experience in them this winter. The latter office building lies to the north of the Capitol and is connected with it by an underground passage. It is a beautiful white marble building which will cost the Government four millions of dollars. It will have every modern convenience of an office building. The interior is finished in marble and mahogany, and while the offices will be elegantly furnished, the general effect will be severe, rather than luxurious. For many years there has been much complaint about the crowded quarters allowed the Senators in the Capitol. Senator Guggenheim of Colorado, who is rich enough to buy the Capitol if it were on the market, had two little dark rooms in the basement last winter. They were the ones vacated by Senator Clark of Montana, who was the richest man who ever sat in the Senate. Of course older and abler Senators fared better, and among these there are not a few who are grumbling about leaving the old and convenient quarters in the Capitol. They protest that they will be farther from their work and more inaccessible to their constituents. Others who have been housed in an old brick building originally erected for a hotel across the street from the Capitol are delighted at the prospect of a change. The Senate as a whole, often spoken of as the "millionaire's club," is not such a pampered, luxury-loving body as it is often represented to be. The majority of the men are there for work, and about all they demand in an office is light and air and a desk. It would not do to furnish them common oak furniture, but if a vote were taken it would probably develop an agreement of opinion that it is as hard to write a speech on a

magohany desk as on a pine table. As for that, the offices are plain in spite of their richness, and it is only in the rotunda and some of the audience rooms that there is any conspicuous decoration. The House of Representatives offices on the opposite of the square in front of the Capitol are also grouped in a splendid white marble building, and as that body is so much larger than the Senate the building is erected on all four sides of a court, instead of on three sides only, as is the case with the Senate offices. Some of the readers of this letter perhaps had occasion ten or twelve years ago to look up the member from his district. If so, he will remember the small corner set aside in the reception hall for this purpose. It was marked off from the rest of the chamber simply by the backs of the sofas which furnished it. There were two or three tables in it. When a member of the House received a card he came to this corner, and the visitor stood in the presence of all the other visitors and related why he had come. The contrast between this and the new quarters, though it has been modified by some years' occupancy, of reception rooms in the Capitol building, is nevertheless very conspicuous both to members of Congress and to their visitors.

During the last week of September and the first week in October four conventions of national and international importance will be held in Washington. As an important convention here is the occasion for not only convention work but for much sight-seeing and extensive entertaining, it will be realized what a busy fortnight the Capitol will have. Already and for many weeks past preparations have been in progress for the International Congress on Tuberculosis, whose sessions begin September 28th and last until October 5th. Distinguished physicians from many parts of Europe will attend, as well as prominent men of science from every section of this country. The congress will be opened by Secretary Cortelyou, who will address the delegates on behalf of the President. The meetings are to be held in the National Museum and a large reception for the delegates will be given by the President, who has hastened his return to the city on account of the meeting of this convention. If the weather permits the entertainment will be in the form of a garden party and the delegates and invited guests will be received on the extensive lawns back of the White House, where the Marine Band in scarlet uniforms and the ladies in afternoon gowns will make a gorgeous contrast to the velvety well-kept lawns and the fine old trees. There will be many luncheons, receptions and dinners, semi-public, and much private entertaining.

The International Fisheries Congress which convenes today is another important convention that will be attended by eminent men. There will be a Diplomatic reception for the delegates at the Department of State and a large reception in their honor by Secretary Straus of the Department of Commerce and Labor. This Congress will also be received by the President.

Other conventions in session about the same time will be those of the Eastern Public Association and the National Association of Railway Commissioners, the delegates to which will find their time fully occupied by sight seeing and entertainment when they are not engaged in convention work.

ton, where the experiments were being made. The official test was to have been made this week and Mr. Wright and the officials of the War Department, as well as the crowds who have daily attended the trial flights, were confident that the aeroplane would easily pass all of the tests. It lies now in the shed where it had been kept, a mass of broken wires, splintered wood and torn muslin. Lieutenant Selfridge, who accompanied Mr. Wright, is dead, and Mr. Wright with a broken leg, several broken ribs and many bruises, is lying in the Army Hospital at Fort Myer in the suburbs of the city, still unaware that his companion in the flight was killed. Of course everyone has a reason why the propeller should have broken and why the machine should have fallen, but it takes little technical knowledge to see that when a flying machine gets anything wrong with its machinery while in air it has but one thing to do, and that is to obey the laws of gravity and reach the earth by the shortest line. When an automobile stalls on a hill it may be annoying, but it is not dangerous. When a flying mechanism falls it is not only dangerous but probably fatal. This fact postpones by many years the time when flying machines will be useful for war or transportation, and before that time it will doubtless demand a heavier vital toll than those who have already fallen victims to the experiments. Lieutenant Selfridge was a clever, promising young man of twenty-six. He had for several years taken the keenest interest in all airships and had made many ascensions. He was also the inventor of some of the parts of the Baldwin dirigible balloon and was fearless in experimenting with them. His death, happily, was painless, as he never regained consciousness after striking the ground.

The Jewish Festival of New Year will be celebrated on September 25th.

Quite an elaborate program for the opening of the cornerstone of the new school at Kissimmee has been arranged for October 15th.

The proposed new school building at St. Augustine will be the finest school building in Florida. It will cost \$60,000, and judging by the plans and specifications every dollar will show up advantageously.

The Key West Cigar Manufacturers' Association have reason to feel proud over the result of their first case against the illegal users of the name Key West, the court having granted a perpetual injunction against the use of the name "Key West" on cigars not made in that city.

J. W. Hartfield, who lives on the place near Sampson City, received a powder burn Wednesday that probably cost him his right eye. He was firing a rifle and in some unaccountable way the charge of powder went out of the breach of the gun and found lodgment in his face, the lower part of it going into his right eye.

T. N. Forsythe of Williston was seriously injured Saturday. He and a crew of workmen were riding in a lever car and were met by an Atlantic Coast Line pay-train. They succeeded in getting three wheels off the lever car when the pilot of the train struck it, throwing it over on Forsythe before he could escape. His hip was badly dislocated, and he was otherwise badly injured.

ANOTHER WONDER OF SCIENCE.

Science has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in science as well as in mechanics. Since the germ that kills the human race has been found, the human race has been saved. Science has heretofore proved a scientific cure for the Herpes. It is a scientific preparation that kills the germ that makes the hair fall out or turn gray. It is the only cure for the scalp, itching scalp, dandruff, and finally baldness. Without this cure the hair must grow luxuriantly. It is the only destroyer of dandruff. It is the only cure for the Herpes. Send 10c for sample to The Herpes Co., Detroit, Mich.

DAYS OF DIZZINESS

Come to Hundreds of Gainesville People.

There are days of dizziness; Spells of headache, sideache, backache; Sometimes rheumatic pains; Often urinary disorders. All tell you plainly the kidneys are sick.

Doan's Kidney Pills cure all kidney ills.

Here is proof in Gainesville: Mrs. E. H. Waters, living at 108 N. Oak avenue, Gainesville, Fla., says: "My kidneys had been in a weakened and disordered condition for some time and I could find nothing to relieve me. I suffered greatly from headaches, and was often so dizzy that I could not stand. Seeing Doan's Kidney Pills advertised, I procured a box at J. S. Bodford & Co's. They acted quickly, and it was not long before I received relief. I have no hesitancy in giving Doan's Kidney Pills my endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

He was cleaning some new land and found a large moccasin busy swallowing little ones to beat the band. He said they ran down the old one's throat in a solid stream. Pinning the mother on a pitchfork he held her before the fire until she disgorged the sixty-four. The little ones were about six inches in length and about the size of a slate pencil.—Wauchula Telegram.

While at work in Hellenthal's bakery, corner of Forest and Park streets, Jacksonville, Friday morning, Ben Goins, a negro, was caught in the machinery and crushed to death. Goins had been employed by Mr. Hellenthal for about a year, and was well thought of about the bakery. Mr. Hellenthal recently installed a lot of electrical machinery in his bakery and while Goins was operating one of the machines, the fingers of his left hand got caught in a cog. Instead of drawing the hand away, in his effort to extract the injured member, he ducked his head down, the machinery catching him across the head and breast, crushing his life out instantly.

Tampa and vicinity, always in the lead in progressive enterprises and important developments, has been within the past few days placed again in the forefront by the discovery of another natural resource which promises much for the building interests of that section. On a tract fully five acres in extent and possibly extending over a tract of twenty acres, about a mile west of Sulphur Springs and about six miles from Tampa, strata of fine marble have been found, to be immediately developed by its owners and they claim to be able to quarry enough fine marble to provide all the stone necessary for the construction or trimming of public and private edifices in Florida for years to come.

GEORGIA LEGISLATURE.

Extraordinary Session of the General Assembly Adjourned Saturday.

Atlanta, Sept. 22.—The extraordinary session of the general assembly finally adjourned after providing for a new penitentiary system for the state of Georgia to be put into effect following the termination of the present lease contracts on March 31, 1909.

Convicts on Public Highway.

The new law embodies the public demand repeatedly voiced during the past few months that the state convicts as a body shall be used upon the public highways of Georgia.

But the law does not "unconditionally" terminate the lease system upon March 31, 1909, and repeatedly demanded by the upper house. However, it takes a long step toward that much desired result.

The house contention that there were practical problems in the way which must be solved slowly, finally prevailed. The safety valve providing that the governor and prison commission might lease for one year any "overs," after counties, municipalities and state institutions had been accommodated, was put in the bill.

The Basis of Agreement.

The senate receded from its stubbornly-contested position, accepted the house bill with the lease provision, and terminated the extra session which had continued for twenty-six days at a cost to the state of \$37,000.

The agreement thus reached was the cause of great rejoicing in the house. Dignified members of the lower body gave vent to their feelings in unrestrained fashion. During a ten minutes' recess a pandemonium of boyish enthusiasm broke forth. Members gleefully inclined sang hymns while others threw printed bills and senate substitutes at each other's heads in good-natured rejoicing over their victory.

The prison commission under the new law is not only given increased power and responsibility, but is charged with the handling of a larger number of convicts and the disposition of larger sums of money than it has ever heretofore been entrusted with.

The bill means an era of good road work in Georgia after March 31 next and all its adherents contend that such a campaign will prove of inestimable value to the whole state.

No doubt the next administration will complete the abolition of the convict lease system.

Passed Examination Successfully.

James Donahue, New Britain, Conn., writes: "I tried several kidney remedies, and was treated by our best physician for diabetes, but did not improve until I took Foley's Kidney Remedy. After the second bottle I showed improvement, and five bottles cured me completely. I have since passed a rigid examination for life insurance." Foley's Kidney Remedy cures backache and all forms of kidney and bladder trouble. J. W. McCollum & Co.

A Traveling Man's Experience.

"I must tell you my experience on an East bound O. R. & N. R. R. train from Pendleton to LeGrande, Ore.," writes Sam A. Garber, a well-known traveling man. "I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said: 'There is a woman sick unto death in the car.' I once got up and went out, found her very ill with cramp colic; her hands and arms were drawn up so you could not straighten them, and with a death-like look on her face. Two or three ladies were working with her and giving her whiskey. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy (I never travel without it), ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into LeGrande, where I was to leave the train. I gave the bottle to the husband in case another dose should be needed, but by the time the train ran into LeGrande she was all right, and I received the thanks of every passenger in the car." Sensation in Courtroom.

Birmingham Ala., Sept. 21.—A sensation was caused in Judge A. C. Howze's division of the criminal court Friday morning when Claude B. Ritter, a well known young attorney, struck D. M. Griswold, a deputy constable, on the head with an iron bar, cutting a deep gash and rendering him unconscious. The bar was wrapped up in a newspaper, and the affair was so sudden that the courtroom was thrown into the greatest excitement. The jury had just retired, and it is understood the blow was a resentment of a statement made by Griswold who was testifying in a case, which reflected on the attorney's character.

Machinists' Strike Off.

Birmingham, Ala., Sept. 23.—A telegram received here calls off the machinists' strike on the Louisville and Nashville railroad, which has been on since May 29, 1907. The men are allowed to return to work if they can get the work. The telegram came from the headquarters in Washington and is said to affect the entire system. Fifty men have been on strike at this point.

New One, Wounded One.

Dawson, Ga., Sept. 23.—As a negro pulled supper on W. D. Davidson's plantation, a few miles west of Dawson, Henry Bell shot Will and John Jackson, killing the former and seriously wounding the latter. Bell escaped.

CAMPAIGN MONEY.

Contributions Being Sent Democratic National Committee.

Birmingham, Ala., Sept. 21.—John W. Tomlinson, chairman of the organization committee of the democratic national committee who left for the eastern headquarters Friday, said that in New York state Chairman Connors had already put into execution the plan of the national committee for precinct organization and that the plan would be carried out in the other eastern states.

The campaign clubs organized in the north to increase the popular vote, he said, were sending in liberal contributions to the national committee to be used in the doubtful states, and the example in Alabama where the democratic state committee donated to the national campaign funds would be followed in other certainly democratic states.

PATIENT ATTEMPTED SUICIDE.

Fearing He Would Lose His Mind He Slashed Throat with Razor.

San Francisco, Sept. 21.—While confined in the general hospital in the Presidio, First Lieutenant Felix W. Motlow, artillery corps, Friday night attempted suicide by slashing his throat with a razor.

He was discovered by one of the hospital corps soldiers and given immediate attention, but because of his enfeebled condition his recovery is said to be doubtful.

According to the statements of his brother officers, Motlow has been brooding over the fact that his brother, Second Lieutenant W. G. Motlow, became mentally unbalanced a year ago, and has been confined in St. Elizabeth's asylum, Washington. It is said that the younger brother feared that he was to be overtaken by the same fate.

BLACK HAND OUTRAGE.

One of Most Unusual Brutality and Boldness, Say Police.

New Orleans, La., Sept. 21.—What the police say is a black hand operation of more than usual brutality and boldness was unearthed Friday night in the arrest of Girolamo Dicarolo, a young Italian.

Mrs. Madeline Atala, who had him arrested, claimed that for weeks he had been trying to extort \$1,000 from her mother-in-law by threatening the daughter in law's life.

Friday, she charged, Dicarolo called at the Atala home, where he saw the mother in law and threatened her with a revolver. Then he is alleged to have attacked Mrs. Madeline Atala, spitting in her face and striking her with his fist in an attempt to get the \$1,000.

Best Treatment for a Burn.

If for no other reason, Chamberlain's Salve should be kept in every household on account of its great value in the treatment of burns. It allays the pain almost instantly, and unless the injury is a severe one, heals the parts without leaving a scar. This salve is also unequalled for chapped hands, sore nipples and diseases of the skin. Price, 25 cents. For sale by all druggists.

K. C. S. Enjoins Arkansas.

St. Louis, Mo., Sept. 21.—The Kansas City Southern Railroad company has applied to the United States Circuit court for an injunction restraining the Arkansas railway commission from enforcing the 2-cent rate and maximum freight laws of the state. Judge Jacob Tribler, of Little Rock, who is to hear the case, arrived here yesterday, but the Arkansas officials, who are cited as defendants were delayed by a late train, and the hearing was accordingly held over until late in the day.

Policeman Shot by His Wife.

Nashville, Tenn., Sept. 21.—J. A. Estes, member of the Metropolitan police force of this city, was shot and seriously wounded Friday morning by his wife, who, after firing a bullet through her husband's thigh, which broke the femur, turned the pistol on herself, inflicting a painful wound in the shoulder. Neither wound is regarded as fatal, and both patients will recover. Mrs. Estes' mind was unbalanced, and she had only recently been released from the state asylum.

When Trifles Become Troubles.

DODGING THE SPEAKER.

One of the First Cases of Filibustering in Congress.

One of the first instances of filibustering occurred in 1805 just after the impeachment trial of the Hon. Samuel Chase, one of the associate justices of the supreme court. A quarrel arose over the payment of witnesses. The house of representatives would pass no bill which provided for the payment of those summoned by Chase. The senate would pass no bill which did not, and a conference followed. Each refused to yield, and the bill was lost.

John Randolph then attempted in the closing hours of the session to have the witnesses for the managers of the trial paid out of the contingent fund of the house. But the Federalists were ready. They hurried from the room, and when the vote was taken the speaker announced no quorum. Members were thereupon summoned from the lobby and committee rooms. Hardly were they in their seats when a message from the president was announced, and while the clerk was reading it the Federalists again left the room, so that when the resolution was a second time called up there was again no quorum. Once more the sergeant at arms went into the lobby, and once more the members came in. But an enrolled bill was reported, and while the speaker was signing it the Federalists a third time slipped out. The announcement of no quorum which followed was greeted with shouts of laughter. Randolph in a great passion desisted, and late on the evening of Sunday, March 3, 1805, the Eighth congress ended.—Baltimore American.

SCIENCE AND TEARS.

Weapon of the Heroine Coolly Analyzed by French Chemist.

One does not care to have one's tears analyzed like a patent food or medicine and to associate them with chemical substances, but we are nothing if not practical nowadays, and every shred of romance, poetry and sentiment is remorselessly wrrenched from us for scientific purposes.

A French journal devoted to matters of this kind has been telling us not only of what tears are composed, but exactly the effect that is produced on brain and body when we shed them.

So henceforth when we read that the heroine's "beautiful eyes were suffused with tears," that "in a moment she was weeping passionately on his shoulder," we shall know that by a kind of shower bath arrangement a mixture of albuminoid, water and chemical substances was let loose at the back of her skull, thus dulling the nerve centers and really giving her relief.

However, it does not sound romantic, and mere man is likely to imagine that the fair one is really suffering doubly when all this happens.—Gentlewoman.

Not So Funny After All.

On one of the cruises out of Rockland we ran into Castine, Me., where crowds of visitors boarded the ship. One old grizzled farmer fell into the hands of a youngster from Montana. For the time being ventilators became torpedo tubes, those "sticks" up in the air were to hold up fog nets, the ropes were clotheslines, the engines ran by radium, and the Hartford was the fastest ship afloat.

The old man seemed deeply interested, especially in the chute for getting overboard, the legs and arms that might be adrift in action and the valve for letting out whatever water might run into the ship. When he finally went over the side he was profuse in his thanks. Turning to his escort, he drew out his card, on which was engraved, "—, Rear Admiral, U. S. N., Retired," and said, "The old ship has changed since I commanded her."—Army and Navy Life.

Denied Right to File Papers.

New Orleans, Sept. 21.—Fifty-three candidates for city and parish offices on the independent democratic league ticket are said to have been denied the privilege of filing their nomination papers with the registrar of voters by Judge W. B. Somerville, of the district court. The decision was based on alleged oversights and irregularities in the original filing of the papers. Teabault for mayor.

A COURSE OF OX.

Try it as an Antidote For the Ills of the Strenuous Life.

In the choice of motor power allow me to suggest the ox. The horse leans forward to pull and even helps himself along by bobbing his head. He jerks a load out of a hard place by plunging bodily against the collar, stopping and lunging again. He strains through a hard place and then starts suddenly forward at his release. He works himself into a lather, and you, if you are the right kind of person, cannot help feeling for him and assisting him with inward stress and strain.

The ox does not bob a horn. He simply journeys, and the load goes along. When he comes to a tough place his pasterns do not bend down, he does not squat to pull, he does not pinch along on the toes of his shoes, he seldom blows, and he does not know how to sweat. He does not exert himself at a patch of woven soil and then hurry up when he is past it. The chain becomes stiffer, and the yoke sits solidly to his neck, and that is all. There is no sign of effort. The garth may grit its teeth and crunch as it swallows the plow, but the ox stalks on his way. With the share deep or shallow or lifted entirely and hanging from the axle, whether he is plowing earth or air, it makes no difference to him. His most ponderous task is still himself, and he heeds no incidentals.

He is out for a stroll. He does not allow work to interfere with the even tenor of his way. His tendons are rigid to his outstanding rump bones like so much spar and tackle, and he goes along by interior leverage. Inside his old woman hulk is the necessary engine work, and he will neither go slower for this thing nor faster for that. There is much about him besides his disposition that is self contained. He is the antithesis of the automobile. To ride on his back is a cure for indigestion; to ride behind him is a rest for the mind. A course of ox is an antidote for the ill of the times.—Charles D. Stewart in Atlantic.

Millions of bottles of Foley's Honey and Tar have been sold without any person ever having experienced any other than beneficial results from its use for coughs, colds and lung trouble. This is because the genuine Foley's Honey and Tar in the yellow package contains no opiates or other harmful drugs. Guard your health by refusing any but the genuine. J. W. McCollum & Co.

BREACH OF PROMISE.

In Which the Law Treats It in Different Countries.

England is the best place, from the plaintiff's point of view, for a breach of promise action. All other countries seem to regard with grave suspicion any attempt to recover money as compensation for the loss of a prospective husband, and unless the plaintiff has a very strong case indeed it is never worth her while to carry a suit into the law courts.

France breach of promise cases are, for the simple reason that law requires the plaintiff to prove she has suffered pecuniary loss. This is not an easy thing to do on the part of the lady, especially in a country where a girl without a dowry is a marriage portion—has a poor chance of finding a husband. Holland and Austria have adopted the French law, and the result has been about the same. Breach of promise actions are, the injured damsels or their parents usually taking the law into their own hands.

Practical Germany, as might be expected, has perhaps the best method of solving this problem. When a young couple become engaged they go through a public betrothal ceremony that ought to knock all the romance out of them. In the local town hall the pair declare their affection, willingness to marry, etc., ending by signing a collection of documents which apparently leave no loophole for escape. But if either party to the contract wishes to withdraw another journey is undertaken to the town hall for another collection of documents, witnessed and sealed. Then the authorities determine the question of compensation—should it be claimed. In this connection it may be said that a man can and often does claim a ransom for his wounded feelings. The usual award is one-fifth of the bride dowry. It is easy to understand when all this is remembered why both the young people of Germany are to break their betrothal.

The law of Italy affords little or no protection whatever to jilted damsels. In swains, it is not surprising that the jilted should be the favorite mode of seeking breach of promise cases. Italian law demands that the person making for the breach shall produce written promise to marry from the defendant; otherwise the action cannot proceed. This difficulty is almost insurmountable, and the Italian judges are troubled to adjudicate between one time lovers.

In bringing an action for breach of promise of marriage against a reigning monarch is an achievement, but it has been done, and by an English lady. Jenny Mitchell sued the sultan of Egypt, and as there was a doubt whether the dusky one was actually a reigning monarch the case was allowed to come into court, but the judge quickly disposed of the action by ruling it inadmissible for the reason referred to. Miss Mitchell was nonsuited.

It is remarkable that one of the two cases which have brought verdicts of \$25,000 each to the plaintiffs should be had for its defendant the editor of a matrimonial paper. The second was between a well known actress and the eldest son of an earl.—London Times.

Tune For Tune.

Frederick the Great made generous presents to all musicians except flute players. He played the flute remarkably well himself. A famous flutist asked permission to play to the king, hoping that Frederick would show his appreciation of his skill by the valuable gift. Frederick listened intently while he played a difficult piece. "You play very well," he said, "and I will give you a proof of my appreciation."

Saying he left the room. The musician waited, guessing at the probable nature of the proof. Presently he returned with his own flute and played the same piece. Then he bade the king "Good day," saying, "I have the pleasure of hearing you, and it is only fair that you should hear me."

Beyond His Aid.

A woman who had a telephone in her room called up the telephone company and asked that the service be discontinued. The man who took her message tried to be exceedingly polite. "We are sorry to lose you," he said, "but you are dissatisfied with anything?" "No," said the woman emphatically.

"We are very sorry," said the man, "but we can help you. What is it that is not like?"

"My loneliness," said the woman. "I am going to be married tomorrow."

"I said the polite clerk, 'you are very well, Goodby.'—New York Sun.

NOTICE OF ELECTION

WHEREAS, The Legislature of 1907, under the Constitution of 1885, of the State of Florida, did pass three Joint Resolutions proposing amendments to the Constitution of the State of Florida, and the same were agreed to by a vote of three-fifths of all the members elected to each house; that the votes on said Joint Resolutions were entered upon their respective Journals, with yeas and nays thereon, and they did determine and direct that the said Joint Resolutions be submitted to the electors of the State at the General Election in November, 1908.

NOW, THEREFORE, I, H. CLAY CRAWFORD, Secretary of State of the State of Florida, do hereby give notice that a

GENERAL ELECTION

will be held in each county in Florida on Tuesday next succeeding the first Monday in November, A. D. 1908, the said Tuesday being the

THIRD DAY OF NOVEMBER,

for the ratification or rejection of the said Joint Resolutions proposing amendments to the Constitution of the State of Florida, viz.:

A JOINT RESOLUTION proposing an Amendment to Section Nine (9) of Article Five (5) of the Constitution of Florida relating to judicial salaries.

Be it Resolved by the Legislature of the State of Florida:

That Section Nine (9) of Article Five (5) of the Constitution of the State of Florida be and the same is hereby amended so as to read as follows, viz.:

Section Nine (9). The salaries of Justices of the Supreme Court, Circuit Judges and Judges of Criminal Courts of Record shall be fixed by the Legislature.

That the foregoing amendment of Section Nine (9) of Article Five (5) of the Constitution of Florida is hereby agreed to, and the same shall be submitted to the electors of the State for approval or rejection at the next general election of Representatives hereafter, as required by Section One (1) of Article Seventeen (17) of said Constitution.

JOINT RESOLUTION proposing an amendment to Article Twelve of the Constitution of the State of Florida relative to education, to be known as Section Sixteen of said Article, providing for the levy of a special tax for the support and maintenance of the University of the State of Florida, the Florida Female College, the Institute for the Blind, Deaf and Dumb, and the Colored Normal School.

Be it Resolved by the Legislature of the State of Florida:

That the following amendment to Article Twelve of the Constitution of the State of Florida, to be known as Section 16 of said Article, be and the same is hereby agreed to and shall be submitted to the electors of the State at the next general election of Representatives, to be held in the year 1908, for ratification or rejection.

Sec. 16. A special tax of one mill on the dollar of all taxable property in the State shall be levied annually for the support and maintenance of the University of the State of Florida, the Florida Female College, the Institute for the Blind, Deaf and Dumb and the Colored Normal School, which shall be paid into the State Treasurer and set apart by him to the credit of the State Board of Education, to be apportioned and disposed of for the benefit of said institutions as required by the act creating and maintaining the same, known as Chapter 5384, of the Laws of Florida, approved June 5, 1905.

JOINT RESOLUTION proposing an amendment to Section Thirty-five of Article Five of the Constitution of Florida, relating to establishments of Courts.

Be it Resolved by the Legislature of the State of Florida:

That the following amendment to Section Thirty-five of Article Five of the Constitution of Florida is hereby agreed to and shall be proposed and submitted to the electors of the State for approval or rejection at the next general election hereafter, that is to say, said Section Thirty-five of said Article shall be amended so as to read as follows:

Section 35. No Courts other than herein specified shall be established in this State, except that the Legislature may provide for the creation and establishment of such additional judicial circuits as may from time to time become necessary, and for the appointment by the Governor and confirmation by the Senate of additional circuit judges therefor, whose terms of office and general jurisdiction shall be the same as is herein provided for the circuit judges herein already provided for, and may clothe any Railroad Commission with judicial powers in all matters connected with the functions of their office.

The votes cast in compliance with said proposed amendments, and the canvass, declarations and returns thereof, shall be subjected to the same regulations and restrictions as are provided by law for general elections in the State of Florida.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the Great Seal of the State of Florida, at Tallahassee, the Capital, this twenty-fifth day of July, A. D. 1908.

A. A. MURPHREE,
President."That Which Is Worth Having Is
Worth Advertising For"

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

Are YOU Being "Hunted?"

One of today's want ads. may be hunting you—ransacking the city for you. It may have a message for you of urgent personal importance—one that, when you get it, and heed it, may change the immediate currents of your activities, of your interests—may even place around and about you new environments, new associates; may give you an entirely new start in a business way.

Isn't it worth while to try to find out whether this may not be true—today, tomorrow, or very soon?

EVERY NON-PROGRESSIVE MERCHANT

BECOMES

Your Competitor

When You Cease to Advertise Aggressively

WHEN a merchant "slows up" in his advertising, and concludes to "save a little money" in that direction, then the merchant who never had the courage and foresight to advertise adequately BECOMES A REAL COMPETITOR. Even the merchant who never advertises at all reaps a certain amount of profit from the "slowing up" process of the live store.

Not many merchants, of course, who have at any time set the pace for progressive advertising, will be content to take a backward plunge into the company of the non-progressives, of the LITTLE MERCHANTS, the easily satisfied ones, the un-awakes! But that is just what the "live one" does when he imagines that his advertising is costing too much, and that its curtailment means "saving."

If business conditions ever suggest retrenchment in advertising, the wise merchant knows that this should be interpreted as a signal for "full speed ahead," for redoubled efforts to WIN the business that does not come so easily as usual.

THERE ARE A THOUSAND AND ONE REASONS

Why we have been so liberally patronized. In the first place, we have the hearty support of our Stockholders and Directors—they know every penny earned by this Bank will be properly accounted for, and they will receive their proportionate share of the Bank's earnings—no "monkey business" here. Then we give our customers such universal satisfaction that they send us new business. We now have between 700 and 800 deposit customers—if you are not one, better fall in line with the "drove." Some good service here waiting for you.
